# FAIRWAY & GREENE

—★ Made In The USA ★—

The hallmark of superior performance and unparalleled craftsmanship, our iconic collection of USA-made shirts stands the test of time. They look great, wash well and feel amazing, wear after wear.

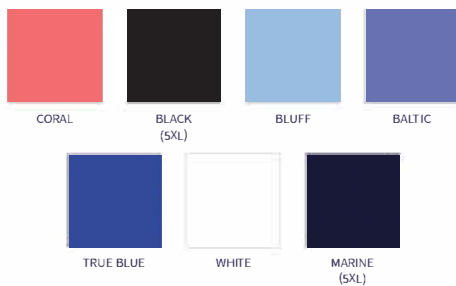

## *What Makes Them Performance?*

Not only do they feature moisture-wicking and quick-drying technology, but they also provide UPF50+ sun protection to keep you safe from the harmful rays out on the course. The 4-way stretch construction ensures maximum mobility for your swing, while also allowing for comfortable movement throughout your game.

**FAIRWAY & GREENE**  
—★ Made In The USA ★—

A man with light brown hair is wearing a navy blue polo shirt. The shirt has a self-fabric collar, a small button at the neck, and a subtle wavy texture. He is also wearing a blue and white patterned belt and red shorts. The background is a green leafy wall.

## High Shoulder Seams

Our shoulder seam is designed to sit on top of your shoulder, creating a slimmer look.

## A Collar That Stays Put

The self-fabric collar in our performance polos are structured enough that it doesn't need a collar stay.

Over the last 25 years, we've perfected the fit and fabric of our polos to be the very best. They're lightweight, wicking, quick drying, stretchy and supremely comfortable—in other words, exactly what you deserve.

## Modern, Tailored Look

Fairway & Greene has come a long way since the box fit of the 90s. This updated fit flatters all body types.
